Dear Mr Gunderson:

The U S Department of Energy (DOE) Rocky Flats Field Office has submitted data to both Colorado Department of Public Health and Environment, and the U.S Environmental Protection Agency, Region VIII (EPA) regarding characterization activities during the past year These include data summary reports for Individual Hazardous Substance Site (IHSS) Groups 000-1, 400-10, 500-6, 600-6, 700-12, 900-2, and 900-4 and 5. The data was collected in accordance with approved Sampling and Analysis Plans (SAPs) and any deviations discussed with Agency staff and documented in the summary reports At this time, the DOE requests formal concurrence that these IHSS Groups be agreed to as No Further Accelerated Action Sites, referred to in previous documentation as No Further Action (NFA) sites The new information and NFA determination will be documented in the Annual Update Fiscal Year 2003 Historical Release Report. A copy of this letter will also be transmitted to the EPA

As discussed, future closeout reports and data summary reports will include the request for NFA concurrence upon approval of the report This should help to streamline and eliminate duplicate paperwork in moving forward with closure of the Rocky Flats Environmental Technology Site. Thank you for your continued support If you have any questions regarding this matter, please contact Norma Castaneda of my staff at (303) 966-4226 or you may contact me at (303) 966-4765

Sincerely,

Richard J DiSalvo
